re: Cane Farmers' Application Form and Farmers' Registration Programme

1. An updated farmers' application form has been developed by the Sugar Industry Authority (SIA) and posted on the website jamaicasugar.org. A copy is attached. This is the form that must be used by prospective farmers when applications are being made to the SIA for registration. All relevant sections of the form should be filled out.
2. A document entitled "Cane Farmers Registration Programme" is also posted on the website and a copy enclosed. It provides a road-map that all individuals seeking to register as cane farmers should follow.

The SIA is urging that the above information be circulated as widely as possible so that all interested parties can benefit from this information.
